

Dear President Trump and other elected officials:

I respectfully request that you pay attention to the science and not the sensationalized headlines created by the fake news media. Flavor bans and business destroying PMTA regulations will create a black-market vapor industry that will be harmful to public health. I, NAME HERE in zip code ZIP CODE HERE, pledge whether you're Republican or Democrat, if you do not support the vape industry then I will not support you.

If there's no candidate that supports vaping as a harm reduction tool for smokers, then I will write in "I Vape I Voted" as a protest vote.

Mr. Trump, please don't forget you promised to cut regulations and help small businesses grow, this is the exact opposite. Flavor bans and FDA's PMTA process is a small business killer and we won't stand for it.

We are over 13 million strong and no candidate can win the 2020 election without our vote.

Support vape and you will have our vote.
